L&H Race Cars

11/13/07

Hey: Robert & Bobby

Just want to share the picture and thank-you for a great transition with my car conversion. Car is reacting great I still have a little tweeting to do with torque converter and applying the NOS. But with only 25 runs I really can't complain. One more stepping stone The Big Dog and we got a plan.. I got two of the three Chassis-Man, Engine-Man now the third Man should put me over the hump. Just want to say thank you'll for the Fine Service and workmanship.

Thank-You

Zeb Artis
